

Title of the Manuscript

Names of the Authors

- Make sure all authors' names are provided in the order of first name and surnames.
- Author names should be spelled out and DO NOT USE INITIALS.
- Remove academic degrees (BS, MS, PhD, MD, DDS, Prof, Dr. etc.)
- Place a superscript number after each author's name if your co-authors have different affiliations.

Example:

Author A^{1,2}, Author B², Author C^{2, 3}, Author D³, Author E³

Institutional Affiliations of the Authors

- Every affiliation should include the names of department, institution, city and country.
- Spell out all institutions and country names.
- Do not abbreviate "University" to "Univ." and use "Department" instead of "Dept." Delete street addresses. Use English names for foreign cities and countries.
- List all the affiliations after the corresponding affiliation number to each author

Example:

- 1) XX Department, XXX University, Name of City, Name of Country
- 2) YY Department, YYY Hospital, Name of City, Name of Country
- 3) ZZ Department, ZZZ Institution, Name of City, Name of Country

Corresponding Author's Information

Name:

Address:

Telephone Number:

E-mail Address:

Conflicts of Interest:

- An example: The authors declare that there are no conflicts of interest.

Source of Funding (if any):

Author Contribution:

Title Page Organization Sample.

Ethical Approval:

- Approval code issued by the institutional review board (IRB) and the name of the institution(s) that granted the approval. If the study does not require approval from the relevant institutional ethical review board, state “None” and indicate the reason.

Informed Consent (for clinical research involving human subjects):

- An example: Informed consent was obtained by all participants in this study.
